

Support 24/7 Caregivers

To the Legislative Assembly of Ontario:

WHEREAS family caregivers are an essential part of people’s lives and;

WHEREAS the Ontario Government has said there’s not enough room in Long Term Care and 24/7 caregivers helping people stay at home and saving the government millions of dollars and;

WHEREAS the Ontario government does not compensate 24/7 caregivers for their constant, non-stop, efforts; and

WHEREAS many 24/7 caregivers are caring for loved ones with complex medical needs;

We the undersigned petition the Legislative Assembly of Ontario as follows:

To call on the Ontario Government to support 24/7 family caregivers, including through financial compensation so that those caring for their loved ones and those receiving care from loved ones have some relief from financial distress and the resulting mental stress.
